We have reviewed the Technical Evaluation Report for the above-mentioned consulting services, submitted to the Bank on 2021/04/07. We understand that the scores reflected in the Data Sheet are average of Phase 1 and Phase 2 activities with the exception that for Khatib and Aalami the scores are for Phase 1 only where their proposal was unable to meet the minimum passing requirements of scoring 75 points. Based on the information provided, the Bank has no objection to the outcome of the evaluation as follows:

Name of Consultant/Firm	Country	Points
M/S HALCROW PAKISTAN (PVT.) LTD.	Pakistan	60.30
OSMANI & COMPANY (PVT) LTD	Pakistan	
NAMA CONSULTING ENGINEERS & PLANNERS, S.A	Greece	
KHATIB AND AALAMI CONSOLIDATED ENGINEERING COMPANY S.A.L.	Lebanon	
TECNICA Y PROYECTOS S.A. TYP SA	Spain	79.39
M/S. MM PAKISTAN (PVT.) LTD	Pakistan	
DAR AL HANDASAH SHAIR & PARTNERS	Lebanon	88.67
NATIONAL ENGINEERING SERVICES PAKISTAN (NESPAK) PVT. LTD.	Pakistan	

Please inform those consultants that have received the minimum passing technical score of the date when financial proposals will be opened. Please ensure you leave sufficient time (at least 7 days) for those firms to make necessary arrangement to attend should they wish. The opening of financial proposals should be made in public.

Please also inform those consultants that failed to achieve the minimum passing technical score of their scores and that their financial proposals will be returned to them unopened after signature of the contract.

We look forward to receiving the Combined Technical and Financial Evaluation report and a draft initiated negotiated contract for our review and no objection in due course.

Best Regards,

Said Dahdah

Dear All,

Many Thanks for the response.
We have two more questions as listed below:

1. Please confirm utilities relocation fall within our scope. In Section 2, starting page 41, they mention "The quotation for the said work has been received and the cost in approval." Does that mean related authorities will consider? For dry utilities, we have NTC, K-Electric and PTCL utilities to be relocated.
2. We have noted several portions which are not at grade, either bridges or tunnels. Have we done a summary for all items so we can easily refer to it? (At grade, underground)

Kindly also give response of the above and we shall be highly grateful.

		have been declared technically qualified shall be opened. The Financial Proposal of the Consultant, whose technical proposals are scored below the technical threshold, as specified in the RFP, shall be returned unopened to the consultant immediately after the award of the contract to the successful consultant.

For the record and as mentioned above, the CSC has carried out the evaluation of your technical proposal in compliance to the Procurement Regulations and the issued RFP. The CSC members have unanimously scored your technical proposal of Phase 1 with lower scores, for not meeting the requirements as stipulated in the RFP. We noted certain weaknesses in your technical proposal such as generic methodology which is not specific to this assignment, frequent spelling mistakes, ignorance in design strategies, missing write-ups on important aspects such as traffic management and pedestrian flow management, missing information of staff inputs, etc. It may also be noted that, because your technical proposal for Phase 1 is scored less than the minimum passing score of 75, the CSC did not report the Phase 2 technical evaluation in accordance with the requirements as stated in the issued RFP.

It may also be noted that in compliance to the Procurement Regulations, the CSC has also obtained no objection from the World Bank before announcing the results of technical evaluation.

Please note that the meeting for opening of the financial proposals shall take place on 29th April 2021(02:00pm) at Sindh Mass Transit Authority Office, House # D-43/1; Block 2; Scheme No. 5; Kelkashan, Clifton, Karachi, Pakistan. Dear Yousuf,

We have reviewed the draft CER following the opening of the financial proposals . It looks very good in general, well done, we just have minor comments for you to address as you finalize the CER.

Please note the official NO on CER comes at the same time when you submit it together with the draft negotiated contract , this is done as a single step in STEP. But let's not worry about our friend STEP now, we keep going and clearing things by email first.

Comments:

1. No conditional offer is to be accepted; the interest rates of late payments were mentioned in the RFP. The Evaluation Report should specifically add a statement that this condition by TYP SA for late payment interest is conflicting to the requirements as stated under General Conditions of Contract Clauses 47 for Time Based Contract and 43 for the Lump Sum Contract. Both of these GCCs have SCCs which specify the interest rate on late payment as 1% annual rate irrespective of the currency of the payment.
2. Form IIA, paragraph 4.6- weightage scores should be used and slight amendment to the title of paragraph as commented on the attached document. At the moment you are using the /100 for technical score and the weighted for financial score , both should be the weighted . The total is fine.
3. Financial proposal of TYP SA does not include the provisional Sum of \$100,000. Please reflect this in the adjustment , split it in half over phase 1 and 2 (\$50,000 each). This will not change the evaluation but for completeness your adjustment table (Form II-B and summary in main text) should reflect your write up about missing items etc..

On this point, it is not very clear to us if the adjustments are complete and correct , so please take a final look at it and add supportive text to back up your adjustments in the footnotes of Form II-B.

Next Steps:

Please go ahead and invite Dar JV for contract negotiations immediately after Eid. **Please don't delay it.** Just to give you an idea how delayed we are, the RFP mentioned contract negotiations to take place January 2021.

1. I refer you to RFP ITCs 28 and 29 to guide your negotiations. **Please read them very carefully , they are detailed.**
2. The two drafts contracts (lump sum and time based) are already in the RFP , these should be used and only allowable changes as explained in the ITCs and Regulations can be done
3. Once you negotiate , share with us the draft negotiated contracts so we review and issue NO. There is a Standstill Period and two Notifications that you need to issue before you can sign , we get into that in due course.

If you want, we can do a preparatory session with you ahead of negotiations as we did last time, up to you let us know.

Best regards

Said

Dear Mr. Yousuf,

Well noted. You are right this may be the cause of not allowing you to upload the minutes of the opening of financial proposals. It seems we are still experiencing difficulties at our end to clear the Complaint in STEP, we are working on it and you will be informed accordingly.

So don't worry about STEP for now, please focus on evaluating the financial proposals. I remind you please to follow the relevant ITCs and the Regulations while doing the financial evaluations. The CER template will also guide you. **Please follow strictly to avoid back and forth.**

Best regards

Said

Dear Mr. Said

Thanks for your email. It is intimated that we are working to finalise the Financial Evaluation along with the Combined Evaluation Report that is expected to be submitted to you before the deadline. However, it is noted that a **complaint** (from M/S Osmani Consultant JV Khatib & Alami) **is still open** (though you have closed it by email) **on STEP**, which I guess is hindering the process of uploading the Financial Opening meeting minutes to STEP.

It is, therefore, requested that please resolve this issue as soon as possible so the minutes can be uploaded to STEP.

Regards.

Dear Mr. Yousuf,

We are fine with these records for the opening of the financial proposals despite they are more elaborated than what we normally require but that is fine if they are suit your internal procedure.

Please upload them in STEP as soon as possible.

Please proceed with the evaluation of the 2 financial proposals that you received and send us the first draft of the CER by end of this week please. We will be calling you every day to check on the progress. There is a meeting with Mr. Waseem this Thursday and we would like to report to him during this meeting that the draft CER has been submitted to the Bank (**not it will be submitted**).

Thanks again for all your hard work, you are almost there

Best regards
